

Statement on behalf of the KPA/KPL Management Committees

During the lead-up to the 2021 KPA/KPL AGM held in February, an unattached member sent various emails to KPA/KPL Officers, insinuating serious mismanagement of funds, particularly the Junior Fund.

The member concerned was asked to justify his comments and later invited to a panel of selected Management Committee members to answer concerns over the implication of such serious allegations.

The accounts and particularly the Junior Fund were addressed by the KPA Chairman at the AGM. Although the member was present at the AGM, no comment was made by him when the opportunity arose for him to do so.

The KPA/KPL Committee members take all matters of this nature very seriously and will always investigate them fully.

In this case, there was no proof or defence of the allegations and it has been concluded that there were clearly other reasons for the unfounded attack on the Management Committee members.
